

José Dirazar Pilonetto

Full Stack developer

Profile

In November 2022, I decided to venture into the world of programming. What excites me the most is that any idea can be brought to life and put into practice, requiring me to be resourceful in order to overcome daily challenges and continually learn new things in this dynamic and full of opportunities sector.

Skills

TypeScript | Next.js
React | Nest.js | TailwindCss | Expo (for
Mobile development for Android and iOS)
database ORM's | SQL Databases |
Nginx | Coolify | Testing (Jest, Cypress,
Maestro, Detox, Wiremock)
